Q I practically live at the beach during summer and go straight to the pub as the sun goes down. Are there outfits you can wear to both with minimal change?

A T-shirts with cooler colours are in fashion and can be worn at the pub or beach (and they go well with a tan). Boardshorts are OK so long as they're not over the top with colours and prints. Stick to simple designs, or even straight white or black. In terms of shoes, wear slip-ons or canvas kicks so you can chuck them off easily at the beach, and they'll be acceptable for nightclub or pub entry. And bring something warm in case the night brings on a cold chill: avoid sports and surf brands, and go for hoodies or knitted jumpers.
