Stuff you want. Because you're a man. And men like stuff.

►VIEWSONIC VNB101 NETBOOK

It's bigger than a phone and smaller than a laptop—and it's perfect for the active guy with serious on-the-go computing needs. Viewsonic has branched out into the netbook market with the VNB101 10-inch netbook, which comes loaded with top-shelf goodies like Windows XP, Intel's powerful Atom N280 processor and 1GB of RAM. Plus, it looks pretty cool and won't weigh you down when you're on the move.

►LOGITECH SPEAKERS

If you're like us, you spend far too much time in front of your computer. But the best way to make sure those countless hours aren't entirely horrible is music. And these little beauties—the Logitech Z520—ensure that you get the very best sound from your tunes while you're working. Even better, they're loud enough to power a modest-sized house party too.

►MANZONI BAG

Let's be honest: backpacks are useful for hauling gym gear around, but not really the kind of thing you want to be carrying into a bar after work. Stop looking like a dweeb and get yourself a Manzoni bag like this one: the F113. No, we don't know why it's just called the F113, but it does look good, measuring in at 40cm x 30cm.
