## Shoulder on

IN CASE you haven't noticed the flashy, overpriced "it" bag is dead in the water. So, too, the oversized tote has been declared far too ostentatious in a financial crisis. The new bag of the moment is cute, compact and oh-so-chic. Casually slung over the shoulder in a manner that says, "I march to my own fashion beat", its fabulosity is all in the detailing - tassels, tartan and patchwork, oh my.
